
Errata — Report on Government Services 2011

The following amendment was made to the 2011 Report since it was released in January 2011.

Part F — Community services preface

Disability services expenditure data for 2008-09 for WA have been revised. Due to a cell formula error, 2008-09 expenditure was overstated for WA by approximately \$38 million. The revisions affect the following:

- table F.1 on page F.8
- figure F.1 on page F.9.

The revised table and figure are reproduced below.

Amended table F.1 and figure F.1 on pages F.8 and F.9

^a Data for 2005-06 to 2008-09 have been adjusted to 2009-10 dollars using the gross domestic product (GDP) price deflator in table AA.26 of appendix A. ^b Data for aged care services published in the 2008, and earlier, reports differ due to revised data and the inclusion of additional expenditure items in the 2008 and later reports. The 2010 and 2011 reports included new expenditure data for the Community Visitors Scheme, the Innovative Care Pool, CALD programs and Specific Purpose Payments. ^c Totals may not add as a result of rounding. ^d See box F.2 for the major programs included in expenditure for each service. ^e More detailed expenditure data can be found in the relevant chapters of the Report. ^f Child protection services include child protection, out-of-home care and intensive family support services.

Between 2005-06 and 2009-10, real government recurrent expenditure on community services increased by \$4.6 billion, or 30.4 per cent. The largest

proportional increase in real expenditure was on child protection, out-of-home care and intensive family support services (hereafter referred to as child protection services), which increased by 65.5 per cent between 2005-06 and 2009-10. The largest absolute dollar increase for a particular service between 2005-06 and 2009-10 was \$2.2 billion for aged care services (table F.1).

In 2009-10, 56.2 per cent of government recurrent expenditure on community services related to aged care services, 29.4 per cent related to services for people with disability, and 14.4 per cent related to child protection services. These proportions have been fairly consistent from 2005-06 to 2009-10 (figure F.1).
