

BA Early childhood, education and training preface — attachment

Tables in this attachment are sourced from the Early childhood, education and training (ECET) preface attachment of the 2011 Report — table numbers from the 2011 Report are identified in the source information. For example, a source reference to ‘2011 Report, table BA.15’ refers to attachment table 15 of attachment BA of the 2011 Report.

Definitions for indicators and descriptors in this attachment are in the ECET preface of the Compendium.

Data in this Report are examined by the Children's Services, School Education and Vocational Education and Training (VET) Working Groups, but have not been formally audited by the Secretariat.

This file is available in Adobe PDF format on the Review web page (www.pc.gov.au/gsp).

(a) Includes people who are participating in full-time employment, full-time education or training, or both part-time employment and part-time education or training.

(b) The 95 per cent confidence interval (a reliability estimate) associated with each proportion estimate is reported (for example, 80.0 per cent \pm 2.7 per cent). See 2011 Report, section A.5 of the Statistical appendix for more information on confidence intervals and relative standard errors.

(c) The 2009 Survey of Education and Work was not conducted in Indigenous communities in very remote areas, which affects the comparability of the NT's results.

(d) Data for Indigenous people are sourced from NATSISS. Data for non-Indigenous people and all people are sourced from the SEW. Data presented in previous were sourced from the ABS 2006 *Census of Population and Housing* and therefore are not comparable.

(e) Proportions are determined using the number of students educated in the jurisdiction divided by the estimated residential population for the jurisdiction, for the age group. In some cases students may be educated in a different jurisdiction to their place of residence. These students are included in the calculation for the number of students in their jurisdiction of education and the calculation for the population in their jurisdiction of residence.

(f) Australia includes 'Other Territories'.

(g) Included people whose Indigenous Status is unknown.

(a) Includes people who have indicated that they have attained one of these qualifications, and people who have indicated that they are working towards a post school qualification. The Census does not enable disaggregation by qualification type, therefore this figure is an overcount of the required population.

(b) Australia includes Other Territories.

(c) 'All people' excludes people whose level of education or attendance status was not stated, and include those for whom Indigenous status is unknown. Consequently, the proportion of Indigenous Australians may be under-represented in some jurisdictions.
