Attachment tables

There are no Emergency management attachment tables in the Indigenous Compendium.

The Emergency management chapter in the *Report on Government Services 2011* (2011 Report) reports on selected emergency events, including fire, ambulance (pre-hospital care, treatment and transport) and emergency road crash rescue events.

Emergency management aims to reduce the level of risk to the community of emergencies occurring, reduce the adverse effects of emergency events, and improve the level and perception of safety in the community.

Indigenous data in the Emergency management chapter

The Emergency management chapter in the 2011 Report contains no data items for Indigenous people.

Some jurisdictions have particular arrangements for the provision of fire services in Indigenous communities. (For more information on fire services in Indigenous communities see SCRCSSP 2002, p. 572. and SCRGSP 2009, p. 11.35.)
