

17A Homelessness services — attachment

Tables in this attachment are sourced from the Homelessness services attachment of the 2011 Report — table numbers from the 2011 Report are identified in the source information. For example, a source reference to ‘2011 Report, table 17A.15’ refers to attachment table 15 of attachment 17A of the 2011 Report.

Definitions for the indicators and descriptors in this attachment are in the Homelessness services chapter of the Compendium.

Data in this Report are examined by the Housing and Homelessness Services Working Group, but have not been formally audited by the Secretariat.

Data reported in the attachment tables are the most accurate available at the time of data collection. Historical data may have been updated since the last report.

This file is available in Adobe PDF format on the Review web page (www.pc.gov.au/gsp).

- (a) Client figures have been weighted to adjust for agency non-participation and client non-consent; figures on number of valid unmet requests have been rounded by 10 and based on valid unmet requests only. Since a client may have support periods in more than one state or territory, state and territory figures do not sum to the national figure.
- (b) Unmet requests exclude requests where the person or group refused an offer of accommodation; where the person or group was inappropriate for the agency; and where the request was not met because there was no fee-free accommodation available. People may make more than one request for accommodation in a day. Data are based on the first valid unmet request for accommodation made.
- (c) Caution should be applied when interpreting numbers of people with valid unmet requests, for several reasons. First, person(s) can make requests on more than one occasion and to more than one SAAP agency. While double counting has been limited by estimating the first valid unmet request, this information may not have been available to record. Second, a number of people may receive ongoing support or accommodation from a SAAP agency at a later time, quite possibly soon after their initial request. Third, a number of people have their needs met by other means and do not return to a SAAP agency. Finally, there are also shortfalls in pro-rating from a two-week collection period to the full year. Many factors influence the capacity of individual SAAP agencies to meet day-to-day demand for their services and it is not possible to identify a two-week period which is 'typical' for all SAAP agencies.
- (d) Figures for SAAP clients exclude accompanying children, while figures for people with unmet requests include accompanying children. The client collection data is not comparable with the unmet demand data.
- (e) Until 2004-05, this measure compared the proportion of people from these two groups who could not be accommodated with their representation among all SAAP clients (including accommodated and not accommodated). Data from 2005-06 onwards provide a direct comparison focusing on accommodation.
- (f) 'Non-indigenous' is calculated from Australian born people minus Indigenous people. These figures are from different questions with different response rates.
- (g) Number of records excluded due to errors and omissions: 2184 from the Client collection, 159.2 (daily average) from the Demand for Accommodation collection.
- (h) Number of records excluded due to errors and omissions: 2033.

- (a) Totals may not add up to 100 per cent as a result of rounding.
- (b) Data prior to 2004-05 exclude high volume agencies (those accommodating 50 or more clients per night, telephone referral agencies, day centres, and information and referral centres) because these data items were often not collected by these agencies.
- (c) Figures have been weighted to adjust for agency non-participation and client non-consent.
- (d) Data for 2005-06 and 2006-07 include analysis of closed support periods only. Data for years prior to 2005-06 included all support periods. Therefore data for 2005-06 and 2006-07 are not comparable with earlier data. Some categories have also changed for 2005-06 and subsequent data.
