Foreword

This Indigenous Compendium contains, in an accessible form, all the Indigenous data to be found in the *Report on Government Services 2012*. The Compendium, like the Report itself, was compiled by the Steering Committee for the Review of Government Service Provision, for which the Productivity Commission acts as the Secretariat.

For a number of years, the Steering Committee has devoted particular attention in its Report to mainstream services delivered to Aboriginal and Torres Strait Islander people. This has meant that the amount of data has expanded considerably. The Compendium brings these data together in the one publication.

This edition of the Compendium, mirroring the 2012 Report, contains additional reporting by Indigenous status, including learning outcomes for recent cohorts of students. The Compendium has also been further developed this year with the introduction of sector summaries for all service areas.
