Foreword

For a number of years, the Steering Committee has devoted particular attention in its Report on Government Services to mainstream services delivered to Aboriginal and Torres Strait Islander people. This Indigenous Compendium contains all the Indigenous data to be found in the most recent Report, published in January 2014.

This Compendium, like the Report, was compiled by the Steering Committee for the Review of Government Service Provision, for which the Productivity Commission provides the Secretariat.

This twelfth edition of the Compendium reflects several improvements in reporting by Indigenous status in the 2014 Report, including Indigenous students' science literacy outcomes and separations from selected hospital procedures for Indigenous people.
