# Foreword

For a number of years, the Steering Committee has devoted particular attention in its Report on Government Services to mainstream services delivered to Aboriginal and Torres Strait Islander people. This Indigenous Compendium contains all the data on Aboriginal and Torres Strait Islander people to be found in the most recent Report, published in January 2015.

This Compendium, like the Report, was compiled by the Steering Committee for the Review of Government Service Provision, for which the Productivity Commission provides the Secretariat.

This thirteenth edition of the Compendium reflects several improvements in reporting by Indigenous status in the 2015 Report, including new data on access to transition care services in aged care and complete reporting by all jurisdictions for group conferencing outcomes in youth justice.
