

Under embargo until 1.00am on Friday, 30 January 2009

For personal use only. Third parties should not be approached until the embargo is lifted.

MATERNITY SERVICES (CHAPTER 10)

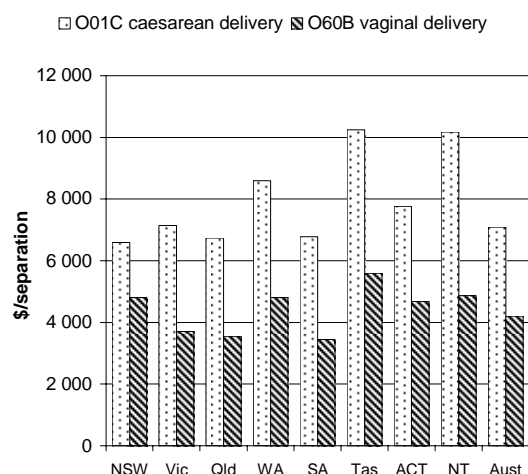

- Maternity services are reported on separately within the Public hospitals chapter.
- Maternity services accounted for 9.2 per cent of total acute separations in public hospitals (table 10A.83) and around 11.0 per cent of the total cost of all acute separations in public hospitals in 2006-07 (table 10A.82).

Objectives of maternity services

- A key objective of government is to provide public hospital services to ensure the population has access to cost-effective health services, based on clinical need and within clinically appropriate times, regardless of geographic location. Maternity services represent a significant component of public hospital services.

Selection of results

Estimated average cost per separation for selected maternity related AR-DRGs, public hospitals, 2006-07^a (p. 10.82)

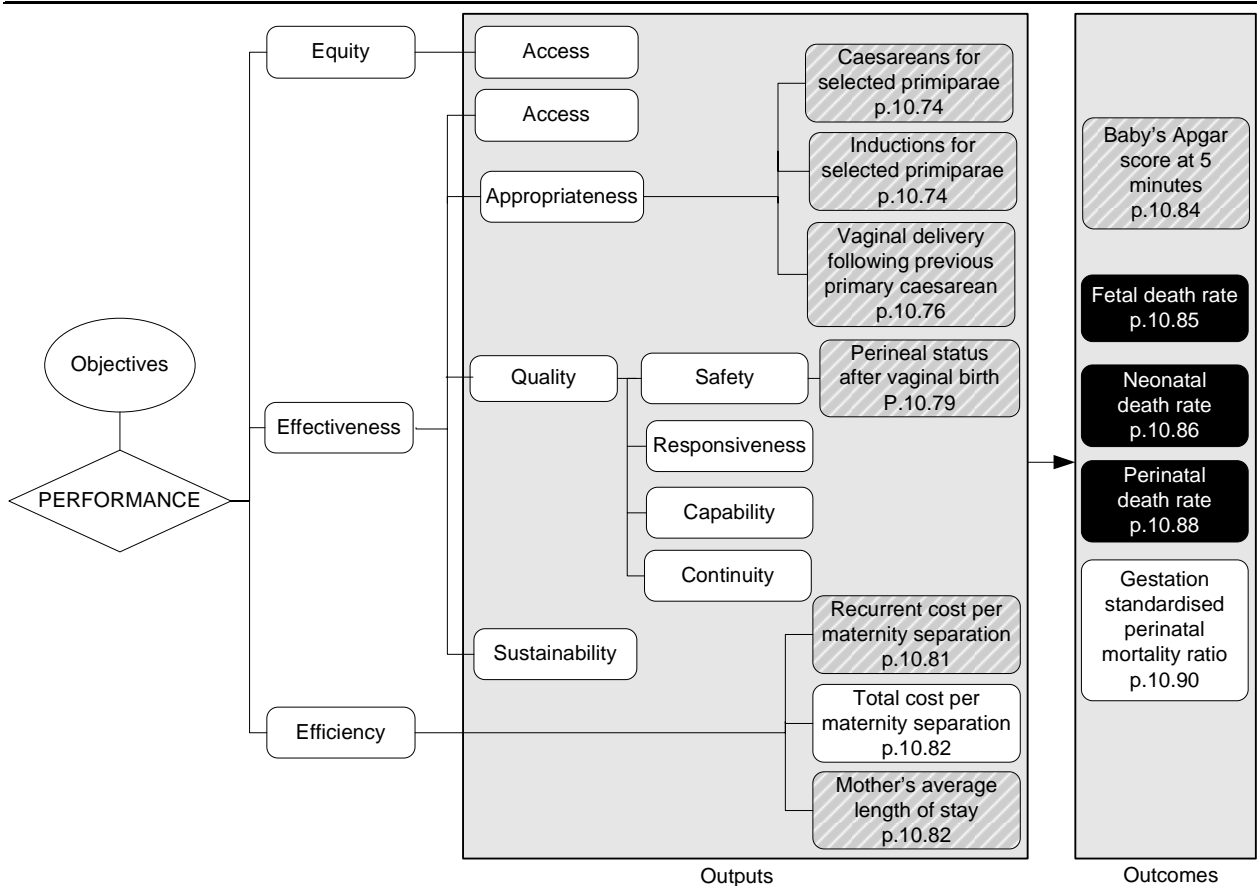

Perinatal death rate, by state of registration, 2006^a (p. 10.88)

^a Data and caveats for these figures are available electronically on the CD-ROM enclosed with the Report and from the website for the Review of Government Service Provision (www.pc.gov.au/gsp/reports/rogs/2009). Data may be subject to revision. The most recent data will be available on the Review website.

Performance indicators for maternity services (figure 10.25, p. 10.73)

Key to indicators

- Text** Data for these indicators comparable, subject to caveats to each chart or table
- Text** Data for these indicators not complete, or not directly comparable
- Text** These indicators yet to be developed or data not collected for this Report: chapter contains explanatory text
